CONNECT 4 RULES: Two player game, starting from the bottom of the board, using a unique colour for either player, colour in one space per turn. The winner is the first person to have 4 spaces in a row at any angle.

DOTS AND BOXES GAME RULES

Take more boxes than your opponent. You move by connecting two dots with a line. When you place the last 'wall' of a single square (box), the box is yours. The players move in turn, but whenever a player takes a box(s) he/she must move again. The board game ends when all 100 boxes have been taken. The player with the most boxes wins.
